

Progr. Project #3 - Week 4 - Assignment 01

- Develop a web page using CSS external styles and interactive resources that change the DOM characteristics.
- The topic of the web page could be any as you want, but the web page itself has to have:
 - Two types of header and at least two paragraphs;
 - At least three different styles for the elements in the web page;
 - At least two buttons changing the appearance (or the information) of two different HTML elements using the DOM methods;
- The originality is not part of the evaluation, but feel free to be as original as you want.

Progr. Project #3 - Week 4 - Assignment 01

- Your web page should be composed by two files, an HTML and a CSS, but if you include image files, don't forget to add them as well in the submission;
- Test your web page in at least two browsers (Chrome, Safari, Firefox, or Edge, any two of them should be fine);
- The HTML folder has to be named "*your family name*".html, so, for example mine should be named: fernandes.html;

Your task:

- Zip your folder with all necessary files and submit it in the appropriate Canvas until Next Wednesday.
